About

With my brand I aim to work as a skateboard company who distributes merchandise, apparel, skateboards and accessories to all skaters, specifically those with an interest in the arts, as goods will reflect work of varied artists and support them as well. By supporting the artist community, we are able to build a stronger bond between these two social groups, and work together to visually create something new. The brand works to suit skaters of all ages, but will be driven by a pursuit of artists and their art to be displayed for all to enjoy.
